GOOD ROADS

PROPER CONCRETE MATERIAL

Just What Kinds Are Best and Proportions for Mixing Made Subject for Experiments.

(Prepared by the United States Department of Agriculture.)

Experiments to determine just what kinds of materials are best for concrete, and in what proportions to mix them, so that they will wear well in a road are being made by engineers of the bureau of public roads, United States Department of Agriculture. An apparatus will be used that consists

Mixing Materials for Concrete Road.

of heavy steel wheels which, guided by a mechanical arrangement, roll continuously back and forth over the pavement.

More than 40 different sections of concrete pavement, each ten feet long, will be laid. Materials from many different parts of the county are being shipped to the government experiment farm at Arlington, Va., near Washington. They will be mixed with varying quantities of cement and water to determine which is best. Experience has shown that there is a measurable amount of wear of the surface of a concrete road each year.

REINFORCED CONCRETE ROAD

Experiments Conducted in Suburbs of Washington to Determine Strength of Foundation.

How a reinforced concrete road holds up under heavy traffic is to be determined by the bureau of public roads, United States Department of Agriculture, through experiments to be conducted on such a road now being built in the suburbs of Washington in co-operation with Arlington county, Va.

The road is being reinforced with many different arrangements of wire mesh and round steel rods embedded in the concrete. The joints will be either a crack left in the road, to be filled with tar, or simply a sheet of corrugated metal set on edge with the concrete poured around it. Some sections are to have joints running along the middle of the road, some across it, and some will be built without joints.

Of especial interest is the construction of ribbed sections. Instead of placing the concrete on a nearly flat subgrade, trenches will be dug in the subgrade running parallel to the edges of the road and also across the road. These trenches will be filled with concrete, giving the slab downward projection of concrete, and presumably strengthening it. Experiments also will be conducted to determine the strengthening effect of treating the earth under the concrete. On one section the earth for a depth of 6 inches will be mixed with cement, using 1 part of cement to 20 parts of earth. In some places where there is a grade a trench under the concrete will be filled with gravel. These trenches will slope toward the edges of the road and drain away any water that might otherwise accumulate under the surface.

BUILD ROADS IN WISCONSIN

Predicted That State Will Experience Greatest Period of Activity During 1922.

The state of Wisconsin for fifteen years has been considered a good roads state. Highway building activity has added vast sums of wealth to the state. However, it is predicted that the state will experience its greatest period of road construction in 1922. Information emanating from the state highway department of the Badger state indicates that the construction of concrete roads in Wisconsin will probably surpass that of 1921.

ONLY A COLD

BUT DON'T NEGLECT IT

A cold is an acute catarrh which can easily become chronic. A great many diseases may be traced to a catarrhal condition of the mucous membranes lining the organs or parts.

PE-RU-NA

AN IDEAL EMERGENCY REMEDY

Just a few doses taken in time have saved thousands from serious sickness. For fifty years Pe-ru-na has been the popular family medicine for coughs, colds, catarrh, stomach and bowel disorders and all diseases of catarrhal origin.

MUST HAVE KNOWN PICKEREL

Uncle Jim Quite Evidently Familiar With the Habits of That Particular Fish.

Uncle Jim, trapper, had some easy "pickin's" in the summer escorting department store clerks on hunting and fishing trips.

Last summer there came one whom Uncle Jim catalogued as a fish monomaniac. He had learned all about casts and flies from a book, and insisted upon being rowed all over the lake long before sunrise.

One morning, while en route to a certain piece of water which this learned fisherman was certain contained every variety of fish, a big pickerel made a playful jump in the water near their boat.

"Wait!" Uncle Jim was excitedly commanded. "Didn't you see that whopper jump? Let's stop and catch him."

"Aw, he'll stay there," said Uncle Jim. "Let's wait and get him when we come back."—Judge.

Built by Boy Scouts.

The lodge house of the W. W. W. at Treasure Island is said to be the finest building ever erected by the boy scouts anywhere. The work was done entirely by scouts and it is a proof of the value and permanency of the order. The building is about 30 by 45 feet, two stories high with two large porches. It will be filled with mementoes.

Don't Forget Cuticura Talcum

When adding to your toilet requisites. An exquisite face, skin, baby and dusting powder and perfume, rendering other perfumes superfluous. You may rely on it because one of the Cuticura Trio (Soap, Ointment and Talcum), 25c each everywhere.—Advertisement.

Sweet Simplicity.

He (lovingly)—What would you do now if I should kiss you?

She (timidly)—I—I don't know. I have never had to answer such a question before.—Barcelona L'Esquella de la Torratxa.

Better one boy in the schoolroom than a dozen in the poolroom.

Heed Nature's Warning

Be on your guard at the first sign of kidney and bladder trouble. Diseased kidneys and bladder shorten life and make old age a burden. Why not enjoy life as you should? Take good care of your kidneys. Don't neglect them. A chill, cold, grip, or fatigue will overwork your kidneys and weaken them. Congestion and inflammation will then set in and cause backache, headache, sleeplessness, and irregularities. Heed Nature's Warning in time. Help your kidneys; and don't worry. Simply take

HINKLE KIDNEY BLADDER CAPSULES

A time-tried prescription of a successful physician. A sure and effective remedy that will prevent symptoms of kidney and bladder trouble and relieve the conditions that exist. Get Hinkle Capsules from your druggist now. If he doesn't carry them, order direct. Large box \$1.00 postpaid. Satisfaction guaranteed. Hinkle Medical Co., Dept. A11, Mayfield, Ky.

Keep Stomach and Bowels Right

By giving baby the harmless, purely vegetable, infants and children's regulator.

MRS. WINSLOW'S SYRUP

brings astonishing, gratifying results in making baby's stomach digest food and bowels move as they should at tooting time. Guaranteed free from narcotics, opiates, alcohol and all harmful ingredients. Safe and satisfactory.

Now I don't think that's wrong,
And Mama says that Faultless Starch
Will make them wear quite long."

FAULTLESS STARCH

WESTERN CANADA Land of Prosperity

offers to home seekers opportunities that cannot be secured elsewhere. The thousands of farmers from the United States who have accepted Canada's generous offer to settle on FREE homesteads or buy farm land in her provinces have been well repaid by bountiful crops. There is still available on easy terms

Fertile Land at \$15 to \$30 an Acre
—land similar to that which through many years has yielded from 20 to 45 bushels of wheat to the acre—oats, barley and flax also in great abundance, while raising horses, cattle, sheep and hogs is equally profitable. Hundreds of farmers in western Canada have raised crops in a single season worth more than the whole cost of their land. With such success comes prosperity, independence, good homes and all the comforts and conveniences which make life worth living.

Farm Gardens, Poultry, Dairying
are sources of income second only to grain growing and stock raising. Attractive climate, good neighbors, churches, schools, good markets, railroad facilities, rural telephone, etc.

For illustrated literature, maps, description of farm opportunities in Manitoba, Saskatchewan, Alberta and British Columbia, request railway rates, etc., write
